

# INFLATABLE BOUNCE HOUSES

## Product Information

Advantage MVP 18 is our signature 18 oz. coated PVC vinyl. Known for its strength and consistency, this sturdy product is well equipped to handle adverse weather conditions and withstand great physical stress. In contrast to its tremendous strength, the soft hand and aesthetic smooth matte surface give it an elegant feel and appearance. Available in many bright and fun colors, this product is ideal for inflatable bounce houses. We even offer a special white vinyl with an acrylic lacquer on the front side resulting in a very slippery surface, which is perfect for bounce house slides.
